HOME BASE: Oklahoma City, OK

The GIVSP is an ideal large cabin, intercontinental-range business jet. Gulfstream's aircraft have evolved through new technologies and improvements, and the GIVSP is evidence of this. With a new design, upgraded engines and additional space, the GIV offers great performance in the intercontinental class of jets; so great that Gulfstream modeled most of their latest jets off of the GIVSP. This particular GIVSP has new paint and one of the most expensive interiors ever installed in a Gulfstream. You can be assured to have the most dominant ramp presence wherever you go and be wrapped in luxury during your trip while enjoying the latest in highspeed wifi technology.
