
Large Jet

Gulfstream G-IV

RANGE: 4,300 nm
SPEED: 575 mph
PASSENGERS: 13
CABIN DIM.: L: 40.4' W: 7.4' H: 6.2'
HOME BASE: Muskegon, MI

As the fourth installation in the Gulfstream family line, the G-IV has earned a loyal following for its reliability, speed and versatility, making it one of the best-selling business jets of all time.

Compared to its predecessors, its Roll-Royce upgraded engine is responsible for 15% improved fuel consumption and decreased noise levels. This, along with its long cabin featuring Gulfstream's famous stand-up height and the same comfort and design that characterizes all G series jets offers passengers efficiently smooth and quiet travel.

An ideal business jet, the G-IV offers great performance with intercontinental range, and has set the standard for Gulfstream, who models most of their latest jets off of the G-IV.
